1. Qualitative Information of Consolidated Results

(1) Operating Results

In the current consolidated fiscal year, the Japanese economy continued on a gradual recovery trend, supported by a pickup in personal consumption – against the backdrop of record-high wage increases – and steady demand for capital investment from companies. On the other hand, the outlook remains uncertain due to rising prices and fluctuations in financial and capital markets, raw material prices and logistics costs remaining high because of the ongoing tension in the Middle East, and the continued trend of yen depreciation.

Amid these circumstances, the Group has entered the second year of [SG-2026] – a Medium-term management plan corresponding to Phase 2 of its [SG-Vision2030] Long-term management plan which has an end date of 2030 – and is promoting various measures designed to enhance its corporate value.

The financial results for the current consolidated fiscal year were as follows: orders received of 327,046 million yen, up 12.2% year-on-year, and net sales of 285,024 million yen, up 7.0% year-on-year. The order backlog as of March 31, 2026 were 360,826 million yen, up 13.2% year-on-year.

In terms of profits and losses, with an increase in revenue, operating profit was 16,329 million yen, up 16.9% year-on-year, ordinary profit was 16,324 million yen, up 20.6% year-on-year, and profit attributable to owners of parent was 11,507 million yen, up 28.5% year-on-year, all of which reached record highs.

The overview of the Group's operating results by segment is as follows.

(Special Purpose Truck)

For manufacture and sales of vehicle frames, etc., both orders received and net sales increased.

Also, for maintenance and repair business, both orders received and net sales increased.

In addition to this, for forestry machinery, etc., orders received decreased and net sales increased.

As a result, for this segment, orders received were 128,366 million yen, up 4.8% year-on-year, net sales were 117,583 million yen, up 8.7% year-on-year, and operating profit was 6,166 million yen, up 25.9% year-on-year.

The order backlog as of March 31, 2026 were 137,082 million yen, up 8.5% year-on-year.

(Parking Systems)

For mechanical car parking systems, both orders received and net sales increased.

Also, for aircraft passenger boarding bridges, both orders received and net sales increased.

As a result, for this segment, orders received were 45,142 million yen, up 2.3% year-on-year, net sales were 50,745 million yen, up 10.9% year-on-year, and operating profit was 4,922 million yen, up 47.7% year-on-year.

The order backlog as of March 31, 2026 were 53,317 million yen, down 8.9% year-on-year.

(Industrial Machinery & Environmental Systems)

For mechatronics products, while the orders received for vacuum products increased, net sales decreased. As a result, orders received for the entire business area increased, but net sales decreased.

For environment-related business, both orders received and net sales decreased.

As a result, for this segment, orders received were 33,662 million yen, down 7.7% year-on-year, net sales were 27,323 million yen, down 17.9% year-on-year, and operating profit was 571 million yen, down 74.1% year-on-year.

The order backlog as of March 31, 2026 were 63,958 million yen, up 10.2% year-on-year.

(Fluid)

With demand steadily increasing both in Japan and overseas, orders received and net sales increased. As a result, for this segment, orders received were 30,678 million yen, up 6.9% year-on-year, net sales were 29,986 million

yen, up 9.0% year-on-year, and operating profit was 4,679 million yen, up 6.8% year-on-year.

The order backlog as of March 31, 2026 were 9,024 million yen, up 8.6% year-on-year.

(Aircraft)

For the Ministry of Defense, both orders received and net sales increased.

Also, for civilian demand-related production, both orders received and net sales increased.

As a result, for this segment, orders received were 66,023 million yen, up 53.9% year-on-year, net sales were 41,558 million yen, up 23.3% year-on-year, and operating profit was 2,593 million yen, up 31.6% year-on-year.

The order backlog as of March 31, 2026 were 77,615 million yen, up 46.0% year-on-year.

(Others)

For construction business, orders received increased and net sales were at the same level as the same period of the previous fiscal year. As a result, for this segment, orders received were 23,172 million yen, up 38.1% year-on-year, net sales were 17,827 million yen, down 1.0% year-on-year, and operating profit was 1,512 million yen, up 3.4% year-on-year.

The order backlog as of March 31, 2026 were 19,827 million yen, up 36.9% year-on-year.

(2) Financial Position

1) Assets, liabilities, and net assets

(Assets)

Total assets at the end of the current consolidated fiscal year increase 29,612 million yen from the end of the previous consolidated fiscal year to 296,056 million yen, mainly due to increases in trade receivables, inventories and non-current assets.

(Liabilities)

Liabilities increased 16,992 million yen from the end of the previous consolidated fiscal year to 170,369 million yen, mainly due to increases in trade payables and contract liabilities, despite decreases in borrowings.

(Net assets)

Net assets increased 12,620 million yen from the previous fiscal year-end to 125,687 million yen, mainly due to the recording of profit attributable to owners of parent, despite the dividend payments. As a result, equity-to-asset ratio increased to 42.2% from 42.0% at the previous fiscal year-end.

2) Cash Flow

Cash and cash equivalents (hereinafter referred to as “funds”) at the end of the current consolidated fiscal year amounted to 35,898 million yen, up 7,615 million yen from the end of the previous consolidated fiscal year.

Following is the state of each cash flow and the contributing factors during this consolidated fiscal year.

(Cash flows from operating activities)

Funds earned from operating activities in the current consolidated fiscal year amounted to 24,364 million yen (compared to 20,499 million yen earned from the same period of the previous fiscal year). This was mainly due to the recognition of profit before income taxes of 15,997 million yen and the change in trade payables of 13,797 million yen.

(Cash flows from investing activities)

Funds used in investing activities in the current consolidated fiscal year amounted to 10,571 million yen (compared to 10,806 million yen used in the same period of the previous fiscal year). This was mainly due to the purchase of property, plant and equipment of 9,357 million yen.

(Cash flows from financing activities)

Funds used in financing activities in the current consolidated fiscal year amounted to 6,259 million yen (compared to 5,115 million yen used in the same period of the previous fiscal year). This was mainly due to dividends paid of 3,570 million yen and the repayments of borrowings of 2,094 million yen.

(3) Future Outlook

The ShinMaywa Group formulated the Medium-term management plan [SG-2026], which falls under Phase 2 of the Long-term management plan [SG-Vision 2030], and announced on May 7, 2024. In accordance with this three-year plan covering the period from fiscal 2024 to fiscal 2026, we will steadily implement and execute various measures aimed at improving corporate value.

At present, heightened geopolitical risks arising from the situation in the Middle East are causing increases in various costs, including raw materials and logistics, and are affecting the procurement of production materials, thereby bringing risks across the entire supply chain to the forefront. Although uncertainty remains high, with regard to the business forecast for the next fiscal year, which is the final year of [SG-2026], based on certain assumptions that can reasonably be made at this time, we forecast net sales of 312,400 million yen, an operating profit of 17,000 million yen, an ordinary profit of 15,500 million yen, a profit attributable to owners of parent of 10,500 million yen, and basic earnings per share of 158.75 yen. For net sales and operating profit by segment, please refer to the financial results briefing material disclosed along with these Consolidated Financial Results for the Year Ended March 31, 2026.

2. Basic Policy on Selection of Accounting Standards

The Group plans to prepare its consolidated financial statements using the Japanese GAAP for the time being, taking into consideration the comparability of consolidated financial statements across periods and among companies.

The Group plans to appropriately address the adoption of IFRS upon considering various circumstances in Japan and overseas.

(Segment Information)

1. Outline of reportable segments

The reportable segments of the Company are the business units for which the Company is able to obtain their respective financial information separately in order for the Board of Directors to conduct periodic investigations to determine distribution of management resources and evaluate their business results.

The Company operates under a system whereby the organization overseeing the cross-sectional functions of the Company is defined as the headquarter structure, while the organizations responsible for production activities directly linked to the Company's businesses are controlled by being divided into business segments according to their products.

Consequently, the Company is made up of segments based on products and services, which then form the bases of its business divisions. The five reportable segments are the "Special Purpose Truck Business," "Parking Systems Business," "Industrial Machinery & Environmental Systems Business," "Fluid," and "Aircraft Business."

The "Special Purpose Truck Business" manufactures and sells special purpose trucks, including dump trucks, tail gate lifters, and refuse compactors, as well as forestry machinery.

The "Parking Systems Business" manufactures, sells, maintains, and restores mechanical parking facilities and aircraft passenger boarding bridges.

The "Industrial Machinery & Environmental Systems Business" manufactures and sells automatic wire processors, vacuum products, and refuse processing facilities and equipment.

The "Fluid" manufactures and sells pumps, watertreatment equipment.

The "Aircraft Business" manufactures and sells amphibian aircraft and aircraft parts to overseas aircraft manufacturers.

2. Calculation method of amount of net sales, gain and loss, assets and other items by reportable segment

The accounting method applied to reportable business segments is generally consistent with accounting method applied to prepare consolidated financial statements.

Segment profit is based on operating profit. Intersegment sales or transfers are determined based on current market prices.

3. Information regarding the amount of net sales, gain and loss, assets and other items by reportable segment, and information on disaggregation of revenue
